

Monster Creation

You have been reading about several monsters that Odysseus has been facing (Scylla, Charybdis, Cyclops, Sirens, etc...). What we are going to do is create the best and deadliest monsters here.

First of all, I want you to take a piece of typing paper and fold it in half. On the bottom half we are going to write about our monster. What does it look like? How tall is it? Where does it live (in water, land, hills, caves, forests, air, etc...)? Is it a cross between animals or is it just a beast all on its own? What can it do? You can just write this all out in a paragraph or list it. Try and be as creative as you can and try to come up with as much as you can.

On the top half of your paper, you will do your best to draw and color your monster. You do not need to be an artist to do ~~good~~^{well} on this! Give it your best shot!

This is due _____ . On that day we will present our monsters to each other and vote on the scariest, ugliest, meanest, and deadliest monsters! All winners get a prize.
